Description

Design and implement integrity checks in the admin.
On detection of integrity failure, assign tags.

First check would be missing surveyor on survey layers.

Associated revisions

Revision c1697e3e - 23/04/2020 02:39 - Philippe May

Integrity checks (WIP, refs #10014):
- Set tags for integrity failures
- Tags on the map: use geometry stored in DB, rather thanrecomputing the center in browser with Turf
- Use pandas for tags
- get_df and upsert_df hstore support
