Description			
A new version of contextily Python library deprecated contextily.sources in favor of contextily.providers.			
Need to update all notebooks (eg. dashboards) with this new convention.

Fixes #10224: use contextily.add_basemap

History

#1 - 12/06/2020 10:46 - Philippe May

That's quite simple, instead of:

```
gs.add_basemap(ax1, 13, url=gs.basemaps.ST_WATERCOLOR)
```

do:

```
import contextily as ctx
ctx.add_basemap(ax=ax1, source=ctx.providers.Stamen.Watercolor, alpha=0.3)
```
