<b>Description</b>			
While importing Baraka_Infrastructure-2020-05-16-Geode_TM.csv file from the Survey basket, I got the error "Error: No accuracy defined for surveyor Eric Chacra - Baraka and equipment {file.equipment}"

Refs #10344: fix error message for accuracy issues when importing raw survey points

#### History

##### #1 - 16/06/2020 04:27 - Philippe May

- Assignee changed from Philippe May to Giulio Di Anastasio

I fixed the error message, which should display now that there are more than 1 accuracy defined for a surveyor and equipment.

In this case: there are 4, so Gisaf cannot know which one to assign to the points being imported.
