

Gisaf - Bug #11187

Error while creating a category with a D or F status

19/10/2020 11:38 - Giulio Di Anastasio

Status:	Closed	Start date:	19/10/2020
Priority:	Normal	Due date:	
Assignee:	Philippe May	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
While creating a category with a D or F status, the following error is displayed while clicking OK after filling the form for the creation of a new category: "Error: relation "V_WMNG_DRTA_id_seq" already exists"			
After closing the notification pop-up, and re-entering all details in the form for the creation of a new category, the error is not notified anymore, and the category with the D or F status is created.			

Associated revisions

Revision 6bf35759 - 30/10/2020 13:01 - Philippe May

- Fixes category creation issues (Fixes #11187)
- Improve SQL CREATE commands granularity and robustness
 - GraphQL: pass messages with category updates
 - Refactor: registry categories index by category name
 - Fix unwanted deletion of table if a category still exists after deletion

#3 - 31/10/2020 15:23 - Philippe May

- Status changed from Resolved to Closed

These messages were quite harmless and happened in the case a new category was added when the same layer was already defined with another status.

I fixed these messages, and also took the opportunity to review the category admin management page. It's applied now on the server.
