Description			
<p>The labels of the new buttons for the wells details are right now not clear: in fact the labels "Extra 1" / "Extra 2", or "Pump 1" / "Pump 2", or "Management 1" / "Management 2" confuses the user who does not know what the numbers 1 and 2 refer to. These numbers refer to the records for each of these tables, so if there are 3 records in Extra, 1 having Harvest and 2 having CSR Geomatics as sources, then all the 3 records will be displayed, as "Extra 1", "Extra 2", and "Extra 3". So we cannot say for instance "Extra H" meaning extra info from Harvest, and the other records as "Extra CSR" meaning extra info from CSR Geomatics, because we might have 2 or more extra info from CSR Geomatics.</p>
