

bung - Feature #1496

mysql_bu.sh: add option to ignore non-existent tables

05/10/2015 13:48 - Charles Atkinson

Status:	New	Start date:	05/10/2015
Priority:	Low	Due date:	
Assignee:	Charles Atkinson	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
<p>Messages like this are believed to be caused by transient tables. They have only been seen when backing up the JIRA database and not until recently:</p>			
<pre>mysqldump: Couldn't execute 'show create table `AO_E8B6CC_SYNC_AUDIT_LOG`': Table 'jiradb.AO_E8B6CC_SYNC_AUDIT_LOG' doesn't exist (1146)</pre>			
<p>When the option is not enabled the same pattern should be reported as a warning (currently it triggers a programming error messages).</p>			

History

#1 - 14/10/2015 08:55 - Charles Atkinson

Another instance while backing up the JIRA DB:

```
Oct 13 16:01:12 ac001.bafi mysql_bu.sh+mysql[1575]: WARN: mysqldump error(s)#012 Error: Couldn't read status information for table AO_E8B6CC_SYNC_AUDIT_LOG ()
```

#2 - 30/10/2015 19:18 - Charles Atkinson

- Priority changed from Normal to Low

Changed priority to Low because non-existent tables are rare.
