<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b> Ther are a few different issues with tags: tags for the layer BLDG-PLTF do show in Industrial Zone (recently entered), but do not display at all in Residential Zone (previously entered) tags for ROAD-PAVD display a double tag, one with "Material: stone", the other with "material: cement and granite". The second one was not entered by Raj tags "integrity:surveor:1" is almost everywhere...  Kindly have a look at it, if you can. I hope it is not due to the needed overhaul of the whole libraries...			

History
