Description

Hi Philippe,
since a couple of days Gisaf does not connect, with error displayed as
502 Bad Gateway
nginx/1.22.1

Kindly let me know when it is resolved, thanks

History

- Status changed from New to Resolved

There was a simple syntax error in the nginx config, that i did when i removed the "old-admin" access", and this came to evidence only after a reboot.

Gisaf itself is fine back to business now.

Sorry!
