Description

Example for roads: field layer is a type of road, which should be displayed in different colors.

This implies to put together a user interface for defining these styles

History

- Status changed from New to Closed

[Part of "cleaning old tickets" effort]

The style for mapbox is in:

- columns "mapbox_paint" and "mapbox_layout" for models defined by survey categories

- table "gisaf_map.qml" for the models **not** defined by survey categories (Misc)
