<b>Description</b> Dear Philippe, as anticipated, I noticed that the last reading of the well is not showing in the measures graph.  Regards  Giulio			

#### History

##### #1 - 01/07/2017 00:24 - Philippe May

I spent a long time trying to fix this bug, in vain so far: it's a hard issue.

Actually, the whole graphs seem to be shifted (the bars do not match the X axes marks by about one month).

I hope a new version of the graph library will correct this. I'm planning to wait until the next release, and eventually dig in that again if the problem persists by then.

##### #2 - 09/07/2017 23:24 - Philippe May

Spent again some time today on this, and i finally found bugs logged in the chart.js library:

<https://github.com/chartjs/Chart.js/issues/2323>

<https://github.com/chartjs/Chart.js/issues/2415>

<https://github.com/chartjs/Chart.js/issues/3107>

<https://github.com/chartjs/Chart.js/issues/3297>

The 2415 seems to be the most accurate one for our problem. Patience.

##### #3 - 26/11/2017 23:37 - Philippe May

- Status changed from New to Resolved

In my development version, ChartJS is updated (version 2.7.1), which promises that this bug is fixed... and yipee, it looks OK :)

Marking this ticket as resolved, to be reopened eventually when i deploy it in production (soon).
