Description			
Use case: display the sea level for the wells			

History

#1 - 04/01/2018 01:09 - Philippe May

- Status changed from New to Resolved

Implemented in [f4649556](#) .

Note that it currently uses an attribute "elevation" of the wells.

This brings a question (for Giulio): the confusion between "altitude" (part of the 3D geometry) and the numerical field "elevation", which might be redundant and should eventually be removed.
