Target version:	Async		**Spent time:**	0.00 hour

Description

The branch "sanic" gives a version of Gisaf on Sanic/Gino.

But there's no practical solution, as of today, for offering the equivalent of Flask-admin.

See https://github.com/fantix/gino/issues/167 and https://github.com/fantix/gino/issues/260.

History

#1 - 29/06/2018 13:10 - Philippe May

https://github.com/aio-libs/aiohttp_admin might be a good bet as of today.

This implies moving from sanic to aiohttp, which is also an option as Sanic dev has slowed down a lot while aiohttp is quite active. Also, https://www.reddit.com/r/Python/comments/876msl/sanic_python_web_server_thats_written_to_die_fast/ isn't encouraging for Sanic, because it shows some issue in the architecture, that aren't fixed in months.

#2 - 07/03/2019 16:24 - Philippe May

- Priority changed from Normal to Low
