<b>Description</b>			
Dear Philippe, as discussed, the tables for AV Raingauges are showing 0 values when it does not rain. We should actually have data only for the trace days and for the rainy days...			
Thanks			
Giulio

- Status changed from New to Resolved

- Assignee changed from Philippe May to Giulio Di Anastasio

Was just my goof up. Corrected in [3af7d16a](#), applied on the server, deleted data for Charlie's raingauge and re-imported. Looks OK to me now.

As you pointed out, other raingauge levels suffer from the same issue, so we'll need to repeat the same cleanup/re-import.  
But first, re-assigning the ticket to you for cross check that Charlie's data is OK now.
