

Gisaf - Feature #7527

Give an option to resample data for graphs (eg. rain gauge)

02/02/2019 10:45 - Philippe May

Status:	Resolved	Start date:	02/02/2019

- Status changed from New to Resolved

There's a new drop-down menu (below the plots) for levels, that allows resampling by time, by hour, day, week, month, or year.

Note that the "aggregation" method to resample depends on the kind of value: eg. average for well levels, and sum for rain gauges.

Confused? It's actually very logical, i can explain ;)

Note finally that there's a currently an issue with the rain gauges (because they have multiple "levels"), which relates to a pending ticket: [#3472](#).
