

Geomatic studio models for Gisaf - Feature #7725

Feature # 7709 (Resolved): Waste water treatment plant improvements

Add a button for generating reports

20/02/2019 16:23 - Philippe May

Status:	Resolved	Start date:	20/02/2019
Priority:	Normal	Due date:	
Assignee:	Philippe May	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
It's just an idea at this point: for each feature, gisaf could be used to generate downloadable, customizable reports. For example, from the information of one waste water treatment plant, a report could be generated (format to be defined), with the purpose of health checks, where this report would define the checks to be conducted given the components of the system. Later on, such facility could be used for other things, like generating automatically a pre-filled redmine ticket.
