Target version:		Spent time:	0.00 hour

Description

Dear Bala,
it looks like there is a new well in Sacred Groves, I checked on our Gisaf but I did not see any well there.
Can you please go there and check it? Please take also the position with GPS, and photo.
Try to understand also if there are reports on this well (depth, casing, slots, date of drilling) or who has the report.

Please let me know

Thanks
Giulio
