

GIS - Task #7818

Studying OGC services with Publish / Subscription for Open source forum.

04/03/2019 16:33 - Debojyoti Mallick

Status:	Resolved	Start date:	04/03/2019
Priority:	Normal	Due date:	
Assignee:	Debojyoti Mallick	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description OGC services can be published for data meant to be publicly available.			

History

#1 - 04/03/2019 16:34 - Debojyoti Mallick

We can publish OGC services using Geoserver : <http://geoserver.org/> (Still looking into it)

Basic presentation on GeoServer : <https://www.slideshare.net/geosolutions/geoserver-an-introduction-for-beginners-37177209>

Tasks completed :

Installation of GeoServer: <https://docs.geoserver.org/stable/en/user/installation/index.html#installation>

Glancing through the web administration interface :

<https://docs.geoserver.org/stable/en/user/gettingstarted/web-admin-quickstart/index.html>

Publishing a shapefile : <https://docs.geoserver.org/stable/en/user/gettingstarted/shapefile-quickstart/index.html>

Creating a PostGIS work-space and a PostGIS Data Store :

<https://docs.geoserver.org/stable/en/user/gettingstarted/postgis-quickstart/index.html>

Connected to AVGIS Database - host: "gisdb.csr.av", port: "5432", database:"avgis" with read-only capabilities

Pending: Understanding schemas of already existing datasets in avgis so that we can resolve errors to compute the bounds of the layer in GeoServer (compute from data),in order to publish them.
