History

#1 - 15/05/2019 16:03 - Philippe May

Optical fibers are OK.

Not sure about electrical lines: we have HT lines already. Should we replace the existing layer, or add to them?

#2 - 15/05/2019 16:57 - Philippe May

- Assignee changed from Philippe May to Giulio Di Anastasio

I quickly checked the electrical lines and could not spot any difference with what is already published. Anyway, the fields are same, so it's just a matter of putting the file in the basket in Gisaf and import.

Giulio, back to you for feedback/cross check.

After, we should inform Johan and Aurinoco that the OF layer is online. Would there be someone in Aurinoco who can take this forward? (yeah, i know it's wishful thinking :))

#3 - 26/05/2020 14:21 - Giulio Di Anastasio

- Status changed from New to Closed
