Category:			**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour

Description

Updating the Color Codes for the features in the AV Geomatics Portal.*

- Color codes need to be standardize.
- We have referred to the Land Based Classification Standards by the American Planning Association.
- We did refer to different standards within the maps used in India but unfortunately none of them follow a single standard.
- Survey of India does not make their standards public.
- Referred to Google Maps color standards of vector symbology
- Finally settled on using the American Land Based Classification Standards for the Major Groups because it also matched with the color codes proposed to be used with our survey data.
- Will refer to architects or the Town Hall if they do use any kind of standards.

History

#1 - 02/08/2019 11:07 - Debojyoti Mallick

- Assignee set to Debojyoti Mallick

#2 - 02/08/2019 16:08 - Debojyoti Mallick

- File deleted (WD-AUROVILLE_CODE_LIST-14_2019-07-08.xlsx)

#3 - 02/08/2019 16:08 - Debojyoti Mallick

- File WD-AUROVILLE_CODE_LIST-14_2019-07-08 (1).xlsx added
