<b>Description</b>			
<p>In Wasteless Point text file we have removed those two points (563, &amp; 564, Rain water pipe line elevation in the manhole).</p> <p>while uploading with those two points in Gsaf. It shows error. So we check with Philippe, he said that for text features we don't have a category in gsaf so for the moment you remove those two points and uploaded it.</p> <p>Because In the "WD-AUROVILLE_CODE_LIST-14_2019-07-08" for P49 (Elevation Attributes For Survey Points, Invert Levels) you have mentioned at field shape file type it is "Text". So In the Gsaf we don't have a category for text features.</p>
