| <b>Status:</b>   | Resolved     | <b>Start date:</b>     | 19/12/2019 |
| <b>Priority:</b>   | Normal       | <b>Due date:</b>       |            |
| <b>Assignee:</b>   | Philippe May | <b>% Done:</b>         | 0%         |
| <b>Category:</b>   |              | <b>Estimated time:</b> | 0.00 hour  |
| <b>Target version:</b>   |              | <b>Spent time:</b>     | 0.00 hour  |
| <b>Description</b>   |              |                        |            |
| Ex: export from Dashboard/Wells: some names of the wells are missing |              |                        |            |

History

#1 - 19/12/2019 15:20 - Philippe May

It's a function of the plotting library (<https://github.com/plotly/plotly.js>). Typically, the way to go is for me to check with that library (in that case: <https://github.com/plotly/plotly.js/issues/1576>). So, it's a tough one.

#2 - 08/01/2020 11:35 - Philippe May

- Status changed from New to Resolved

Fixed: set option in plotly to export the PNG with the same size than what's online.
