

Gisaf - Bug #9473

string "redmine ticket: 9118" displays on map

20/12/2019 19:40 - Richard Presley

Status:	Rejected	Start date:	20/12/2019
Priority:	Normal	Due date:	
Assignee:	Philippe May	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
This is very curious. The text string "remine ticket: 9118" appears on the map.			

History

#1 - 20/12/2019 23:36 - Philippe May

- Status changed from New to Rejected

Isn't it nice and useful to have links from elements on the map to redmine tickets?

Definitely a feature, not a bug bowtie.png

#2 - 21/12/2019 15:38 - Richard Presley

Awesome! My fantasy was that GeomaticsAV had been hacked, and a prankster was burying Easter Eggs in your code: changing my geo-location one day, popping up redmine tickets another day . . . in the embedded firmware for one of our scientific products, we included a "Pac Man" game Easter Egg: we never advertised the feature, but word got around--it took a few dual-key presses to launch, and then you could play. Nice to know that the redmine ticket posts are a feature, that we were not hacked. :-)
