Description			
<p>Dear Philippe, I tried to access data from PgAdmin, but I got the following message irrespective of the table I was trying to access:</p> <pre><!DOCTYPE HTML PUBLIC "-//W3C//DTD HTML 3.2 Final//EN"> <title>500 Internal Server Error</title> <h1>Internal Server Error</h1> <p>The server encountered an internal error and was unable to complete your request. Either the server is overloaded or there is an error in the application.</p></pre> <p>Kindly let me know if I need to do anything on my side, I need to access data for the report</p> <p>Thanks</p> <p>Giulio</p>

- Estimated time set to 0.10 h
- Priority changed from Urgent to Low
- Status changed from New to Resolved

Dear Philippe,
I updated Pgadmin to version 4-4.17, and it fine now.

Thanks!!

Giulio
