Enter correct day and time of the measurements of the wells

18/02/2020 17:23 - Philippe May

Status:	New	Start date:	18/02/2020
Priority:	High	Due date:	
Assignee:	Bala Ramachandran	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>All recent times of monitoring of the well levels show around 4 to 5 PM.</p> <p>This shows that you don't enter the time when you took the levels, but the time when you entered the value in the system. Also and more importantly, we even lose the day when you measured if you enter don't enter the levels that same day!</p> <p>It's important to put proper the information there! From now on, please be careful.</p> <p>Also, can you correct all the records with wrong information?</p>
